

“Hi I’m **Jason**, here’s how I actively shape my ultimate **Optometry goal**”

**How my passion for Optometry began...**

It all started with my own eye exam. I found the equipment really interesting and was just so amazed with how the eye works! Here’s a career that enables me to combine my interest in healthcare with my ability to work with people – what more could I ask for!

I love OPSM Downtown; the city location, the team, and the customers. Recently, I had a patient cry when I trial framed her prescription... all of sudden she’d realised what she had been missing out on for fifteen years! It’s these experiences and customer loyalties that make it all worthwhile.

**It’s all about training, self development and ongoing support with Luxottica...**

I’ve been really fortunate to receive so much support from Luxottica and OPSM. My skills and knowledge increased dramatically in my first six months at OPSM. I was working alongside highly skilled Optoms who took me under their wing.

I continually reference Luxottica’s Institute of Learning; I’ve studied diseases of the eye, children’s vision and have been inspired by local Ophthalmologists. I truly believe Luxottica presents a greater learning and development framework than any private practice could offer me.

**Here’s my vision for the future...**

For now I’d like to have a short stint with Luxottica in Melbourne, surrounded by the hype, culture and fashion. In the future I’d like to own my own business. Luxottica’s Flexible Business Models can help make this dream a reality. I can have a great work life balance with Luxottica. This is really important because I like to travel, socialise and continue my passion for Karate – I’m a black belt!

**Jason**

**Optometrist - OPSM, Downtown - Auckland**

**I’m working to achieve my ultimate goal** – my own business. With Luxottica’s Flexible Business Models I can make this happen

**For some time out I really enjoy** painting, socialising and a bit of travel

**Today:** I’m the sole Optometrist at Downtown OPSM enjoying the city location

**2007:** I head to OPSM, Melbourne for a 3 week practical placement – I love the pace and travel opportunity

**2007:** I graduate from the University of Auckland

**I keep active** – I have a black belt in Karate

**2004:** My introduction to Luxottica via an OPSM Cadetship. I was so impressed with the support and training Luxottica provided

**2003:** I start as a part time Dispenser at Lynn mall, while studying Optometry
